Title: CONNECTOR DEVICE FOR PRODUCING AN  
ELECTRICAL CONNECTION BETWEEN A MAINS  
CABLE AND A LOOM

Commissioner for Patents  
PO Box 1450  
Alexandria, VA 22313-1450

**INFORMATION DISCLOSURE STATEMENT**

Sir:

In accordance with 37 C.F.R. 1.98, I am submitting a completed "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" (*Form PTO/SB/08A*) with patents and/or publications as delineated therein attached.

DE 196 08 245 discloses that the invention relates to a plug (1) for an electrical device with at least two flat pin sockets (6) in which the plug (1) is out-of-round in cross section perpendicularly to the plug-in direction (r), with an axis of symmetry (x) passing through the largest dimension. To provide a plug for an electrical device which is characterized by a geometrically uncomplicated, stable and easily handled design, it is proposed that an axis of osculation (y) run transversely to the axis of symmetry (x) in such a way that the cross section above and below the axis of osculation (y) is bounded by a convex line of curvature (K1 and K2), where both lines of curvature (K1 and K2) are substantially in the shape of a section of a circle with different radii.

EP 1 182 734 discloses the control device comprises a casing (23), and at least one control unit (24) with connections at a side of the casing for connecting to a line supply, and flat plug connections (20) at an output side of the casing for connecting to at least one electric

load of the apparatus. The flat plug connections are arranged in a predetermined raster parallel to each other with a predetermined distance or a multiple of it, and are secured against manual touch. The flat plug connections are preferably surrounded by a casing.

If no translation of pertinent portions of any foreign language patents or publications mentioned within the "INFORMATION DISCLOSURE STATEMENT BY APPLICANTS" is included with the aforementioned copies of those applications, patents and/or publications, it is because no existing translation is readily available to the Applicants. As per the Notice in 1273 OG 55 (August 5, 2003) no copies of any above-mentioned US patents and US patent application publications are submitted for this application which was filed after June 30, 2003.

Respectfully submitted

Russell W. Warnock
